Full Stack Web Developer with 5+ years in the Music, Restaurant, and Business Industry. Passionate about solving complex problems and utilizing my background as an educator to benefit a mission driven company. Experience developing web applications using React.js, GraphQL, MongoDB, and MySQL. Recently deployed an application with a team of four that provides a responsive user interface for tabletop role-playing games. Strengths in teamwork and finding creative approaches to problem solving. Excited to apply technical skills in a fast paced, quality-driven team.
